DOCKET NO. 2001-104-E - ORDER NO. 2001-271

MARCH 28, 2001

IN RE: Request of Duke Power to add a Metal Halide	)	✓ ORDER APPROVING
Luminaire Rated at 110,000 Lumens to its	)	ADDITION TO
Outdoor Lighting Schedule OL.	)	OUTDOOR LIGHTING
	)	SCHEDULE

This matter comes before the Public Service Commission of South Carolina (the Commission) on a request from Duke Energy for a proposed addition to Duke Power's Outdoor Lighting Schedule OL. Duke Energy proposes to make available on Schedule OL a metal halide luminaire rated at 110,000 lumens. According to Duke Energy, metal halide lighting is often used to light retail businesses and their parking areas. Duke Energy is also proposing to revise the wording in Explanatory Note (7) to include the new metal halide light and pole. Duke Energy requests the Commission's approval of this addition so that it can begin offering the new equipment by April 1, 2001.

We have examined the proposed addition to Schedule OL, and conclude that it should be approved. It appears to us that the additional lighting would be useful to a certain segment of Duke Energy's customers. The addition is approved as filed.
